ASK YOUR DATA

Try Asking :

- What is the average price by Brand?
- Show the count of laptops by TypeName
- What is the average price by RAM?
- Show the count by operating system
- Is there a correlation between Weight and Price?
- Which Brand has the most laptops sold?
- What is the total number of laptops by RAM size?

What is the average price by Brand?

LAPTOP SALES KEY FINDINGS

1. Pricing
The average laptop price is ₹59.87K across 1,303 laptops. Price tends to rise with RAM, screen size and weight.

2. Brand & Type
Notebooks are the most common type (55.79%), followed by Gaming (15.73%) and Ultrabooks (about 15%). 2-in-1 laptops make up 9.29%.

3. Specifications
The average RAM is 8 GB and the average screen size is 15.02 inches. Windows 10 is by far the most used operating system.

4. Recommendation
Focus on mid-range Notebook laptops with 8 GB RAM, the largest and most typical segment.

Thank You
